

TOM SHERMAN

FRONT END WEB DEVELOPER

PERSONAL STATEMENT

I'm a dedicated developer specialising in creating accessible, well architected, seamless, and innovative user experiences. I'm mostly self taught with experience in small and large e-commerce businesses, as well as contributions to Open Source.

EXPERIENCE

FRONT END WEB DEVELOPER

Lisa Angel / July 2019 – Present

I am the principle frontend developer at Lisa Angel where I am transitioning the core e-commerce offering from a legacy jQuery codebase to a Webpack/React application within a Lerna monorepo.

- Using my skills in Agile development to deliver modern web applications
- Creating and integrating a Webpack build pipeline into an existing PHP codebase. Maintaining a small bundle size from utilising code splitting
- Working with stakeholders to properly scope, test, and develop projects using TDD.

KNOWLEDGE ENGINEER

Rainbird Technologies / August 2018 – July 2019

Delivering industry leading AI and automated decision-making solutions to multi-national clients.

- Integrating the Rainbird API with GApps, chatbots, custom webapps (React)
- Creating innovative developer tooling to increase productivity of Rainbird engineering
- Coaching Rainbird Engineering internally and externally
